Creativity is not a privilege – it is a tool that everyone can use to transform our individual lives and the world around us.

What dreams do you want to realize? What visions are hidden inside you? If you had five more lives to live, what would you choose? What creations you dream of and what actions you can take to make them real? Let yourself find the way to a more fulfilled, creative life through discovering your inner resources and learning how to use them. **Join creACTivity Workshop on March 5-6, 2010** to empower yourself with creative tools, helpful tips and inspiring new ideas.

The workshop will give you an opportunity to unleash your creativity and let it shine in your personal and professional actions. Through a sequence of creative exercises, group work and networking you will discover your inner sources of creativity and learn how to apply them in your everyday life.

We offer you a motivating double-workshop format combined with a location just perfect to embark on a creative journey. You will spend 2 days\* in a friendly and encouraging atmosphere together with young active individuals, working together to achieve your fullest potential.
